School of Computing Science and Engineering

LAB - 6 Exercises

Course Code	:	CSE6017 - Mining Massive Dataset	Date	:	14/02/2020
Lab Experiment	:	Page Rank Algorithm implementation in Apache Spark framework	Slots	:	L55+L56
Instructors	:	Prof. Ramesh Ragala			

Objective:

1. To understand the PageRank Implementation in Apache Spark using PySpark

Exercises:

1. Convert the default PageRank program in Python3.6 and store the results in text file
2. The assignment is available in the following link.
